

Give your customers the signature touches they love for less.

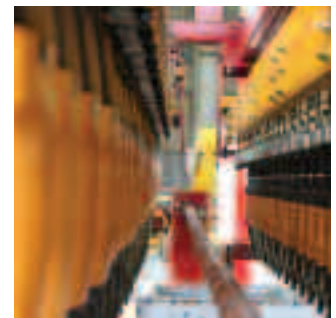

INTEGRATED INTERNAL AND EXTERNAL SYSTEMS.

Integrated Systems for interior and exterior millwork from Annandale takes the guesswork out of finishing components.

Get it right the first time. Our unique system approach to building integrates all facets of construction to build quality products at a very competitive price. Nobody else in the marketplace does it the way we do. Here's why:

- » **High Standards.** We use computer-aided design and a state-of-the-art, laser-guided manufacturing process.
- » **Integrated Supply & Install.** We act as a one-stop vendor, providing synergy between elements and project coordination. Components are delivered in sequence and installed by our team.
- » **Certified Installers.** Our window and door installers are certified by InstallationMaster™ and the AAMA.
- » **Economy.** Save time, reduce labor costs, waste, loss and theft. We manage material on your site.
- » **Customization.** We manufacture all residential and commercial millwork to exact builder specifications. We produce and install pre-made studs at our facility in Yulee.
- » **Architectural Design.** We offer specialty millwork for residential and commercial projects.
- » **Teamwork.** "Value Engineering" is part of our service. Talk to a licensed contractor who speaks your language and can help you troubleshoot your project to find potential savings. We offer detailed, itemized proposals and proposal review sessions.
- » **Environmental Friendliness.** We buy high-quality lumber from mills that use industry grade stamped spruce pine fir and subscribe to the Sustainable Forest Initiative.

You have options. From trusses to trim work, Annandale Millwork/Allied Systems can supply all essential building systems. Please call us to discuss the possibilities.

The sky is the limit when it comes to project complexity. Our laser-guided process means your roof trusses are fit precisely to architectural drawings.

Pulte, Richmond American, Centex, Lennar, D.R. Horton and Mercedes Homes depend on us for quality integrated internal systems.
